About Lundahl Enterprises

Lundahl Enterprises (LE) has been providing assistance to libraries with their technical services needs since 1981.

Founded to capitalize on the increased computerization in libraries, LE has developed and maintains systems for many clients. LE provides traditional library cataloging products, such as printed cards or book catalogs, as well as bibliographic databases. Along the way, we have often provided advice and assistance on matters beyond cataloging.

LE has extensive experience in using OCLC, SIRSI Unicorn and the InMagic database computer program and some experience with the database programs Q&A, dBase, and Helix and the library automation programs from DataTrek.

LE serves libraries both small and large. Current clients include Altheimer & Gray; Ameritech Legal Dept.; Arthur Andersen Consulting; Bank of America Illinois; Chicago Library System; Clermont County Law Library (Ohio); Exxon U.S.A. Law Dept.; Gardner Carton & Douglas; Hedlund, Hanley & John; Holleb & Coff; Jenner & Block; Kirkland & Ellis; Latham & Watkins; Lewis & Roca (Arizona); Mayer Brown & Platt; Neal Gerber & Eisenberg; Pedersen & Houpt; Peterson Consulting Limited Partnership; Rudnick & Wolfe; Seyfarth, Shaw, Fairweather & Geraldson; Sidley & Austin; State Farm Insurance Companies; and Winston & Strawn.

Our principal, Margaret Lundahl, has over 25 years of professional library experience. Further details about her background are noted on the opposite side of this page.

LE also has staff experienced in the printing of label sets and the processing of books.
